## W ENGINEERING & GEOTECHNICAL

Together we provide a full range of professional civil engineering, surveying, and geotechnical engineering services. Locally owned and operated since 2001, we continue to build our practice on commitment to quality service, excellent design, timely delivery and cost-effective solutions.

### OUR SERVICES

- General Civil Engineering & Design
- Boundary & Topographical Surveying
- Construction Survey Stakeout
- Geotechnical Exploration
- Construction Materials Testing

## CIVIL ENGINEERING & DESIGN

W Engineering, P.A. maintains a staff of professional and technical associates including engineers, surveyors, CAD draftsmen, inspectors and office administrators, with over 20 years experience in a variety of engineering fields. Every member of our team possesses the skills and abilities necessary to successfully fulfill the demands of each project on time and within budget.

## LAND SURVEYING

Our in-house survey team utilizes state-of-the-art technology to provide surveying services for a variety of functions including boundary surveys, land development, planning, design, and construction.

We use Global Positioning Surveying (GPS) along with a variety of CAD and computerized design services to produce efficient and excellent design solutions for each client.

**Call 601-928-5981 for an appointment today.**

## GEOTECHNICAL EXPLORATION

W Geotechnical, Inc. conducts full subsurface soil exploration, including drilling operations and soils laboratory testing. Our in-house drilling team utilizes modern equipment to perform necessary field and laboratory tests to determine accurate soil properties and characteristics. Our engineers present all results, analyses and recommendations in a concise and comprehensive written report.

## CONSTRUCTION MATERIALS TESTING

Our team of reliable, trained, and certified technicians provides efficient and cost-effective observation and testing during all phases of construction, including on-site testing and laboratory testing for soil and concrete placement in conjunction with addressing many other construction materials testing issues.

### OUR COMMITMENT

- Providing quality personal service on time & within budget
- Building long-term relationships with local clients
- Ensuring the safety of our employees on every project
